

Take a stand against corporate greed!

Don't Shop @ Verizon Wireless!

Top Verizon executives took home \$258 million over the last 4 years. While they rake in the dough, they want to slash the wages and benefits of their workers.

This company is making record profits. Yet while the top brass grab more and more for themselves, Verizon Wireless is refusing to bargain and is demanding that its workers add to those profits from their own pockets.

It's time customers and workers at Verizon Wireless join together and say, "Enough."

Stand With Workers, Not With CEOs

Corporate Greed has gotten out of control in America. The rich are getting richer, and demanding we give them even more.

It's time to send them a message.

Stand with your fellow working Americans to defend middle-class jobs.

Please don't cross our picket line! Please sign our petition to Verizon's CEO at www.cwa-union.org/verizon_greed
